

BEX VI Scoring and Ranking

Seattle Public Schools is committed to making its online information accessible and usable to all people, regardless of ability or technology. Meeting web accessibility guidelines and standards is an ongoing process that we are consistently working to improve.

While Seattle Public Schools endeavors to only post documents optimized for accessibility, due to the nature and complexity of some documents, an accessible version of the document may not be available. In these limited circumstances, the District will provide equally effective alternate access.

For questions and more information about this document, please contact the following:

Rebecca Asencio
K-12 Planning Manager
rsasencio@seattleschools.org

This multi-level table shows scores for evaluations of schools throughout the district. It includes the building, school type, region, score for health, safety, security & building condition; learning environment; accessibility; facilities planning; and school equity index. The final column shows a weighted overall score and ranking. For the schools rated in the top 9, there is a brief scope of work.

BEX VI Scoring and Ranking

*/** excluded from the levy proposal due to levy size/pending Well-Resourced Schools decision

Chief Sealth Int'l High School recommended for the levy to support academic program needs and remove portables.

John Marshall Building not fully scored but recommended for the levy for seismic improvement needs required by upcoming city ordinance and likely imminent failure of HVAC system.
