

NHHS 2025-26 Course Option Sheet for 9th Grade

Name: _____ Class of 2029

Welcome to Nathan Hale! Use this course option sheet to request courses for next school year. Your 9th grade academy courses (Language Arts, Social Studies, and Science) have been already pre-selected for you. Use this sheet to choose your yearlong Math course and your electives. By selecting a specific course you are both expressing your interest and your commitment to complete it. When you receive your schedule at the end of the summer, you may find your classes are in different order than what you see below.

1. Elective course options are on the back side of this sheet. Check out the 25-26 Course Catalog on the Hale website for a detailed description of each course: <https://halehs.seattleschools.org/academics/course-catalog/>
2. Select either 1-2 yearlong electives or 2 electives for each semester. **All courses offered meet graduation requirements.**
3. Choose four alternate elective classes. **These need to be four courses in addition to your first choices.** You will be placed in these if your first choices are filled by upperclassmen.
4. Please make your selections from the courses listed on this form. **Not all courses in the NHHS Catalog are offered each semester.**

Our vision at Hale is that all students are capable of achieving honors. Pathways for advanced coursework are designed as a collaboration between students, their families, and their Academy teachers throughout the semester.

IEP and MLL (ELL) students please note: Your IEP or MLL (ELL) teacher will work with your counselor to make sure you are in the right support classes.

For Yearlong Classes, only enter 1st semester online and we will auto-enroll you into 2nd semester

1st Semester

Subject	Course Code	Course Name
